NEW STAKES FOR THE GREAT LAKES

WORLD WATER WAR

“If the wars of this century were fought over oil, the wars of the next century will be fought over water.”

Isak Songelev, 1995 World Bank vice president

OUR WATER RESOURCES ARE AS CRITICAL AS OUR ECONOMY

US WATER CONSUMPTION

“Nationally, 36 states are anticipating local, regional or statewide water shortages by 2013. Americans now use an average of 100 gallons of water per person every day. If we don’t soon come up with innovative technology to use water more efficiently the well-so to speak — is going to run dry.”

Metheny, House Science and Technology Committee, 2008

GREEN FOR YOUR BLUE!
REDUCE CONSUMPTION AND FACILITATE TRADE

WPA 2.0 asks to reimage the works program administration of the 1930s for a new era. If the WPA used Federal Resources to jumpstart the economy by offering jobs in the construction of lasting infrastructure and cultural contributions to the United States. A WPA 2.0 should also ensure that federal investment goes to systems that develop multiple industries and economies at once, that ser processes in motion that will serve the entire aviation, and that safeguard the future of the great resources of this land.
